**this is Jasmin Hajro from Zelhem, the  
Netherlands**

**I just came home, I went out  
selling greeting  
cards**

**I made six sales and one of them  
was a gentleman that wouldn't buy  
the greeting cards  
but he was generous  
enough to give me five  
euros.**

**which is very kind of him  
very generous.**

**Six is okay I guess ..  
it was enough for groceries and  
envelopes ..  
the envelopes for the greeting cards.  
I have plenty of tobacco, my friend  
Richard bought it in Germany**

a package is there like  
€8 and here in the Netherlands the same  
package would be like 15 or 16 euros  
so it's better..

it saves money .

He's also he's obviously a good  
friend of mine...

he has helped me a  
lot last year  
when I cleaned out the  
shed .

there is a foundation that  
picks up your secondhand stuff  
and I have put all the stuff at  
the front of the house  
and they came but  
they only took a little bit  
like the printers and the coffee machines  
and

nothing else...

they left it there

and my friend Richard ,he  
bought a fan

he is also an entrepreneur  
and he helped me to get rid of the stuff.

And he also helped me to pay gas and  
electricity, by borrowing me money .

I saw him with Christmas

he's very

very busy, couldn't stay for long

but we were able to talk a bit

and

smoke one of these Moods.

These are cigarillos...

I've I've gotten them

from my sister ,

it was a gift to me.  
I also  
got another present it is this one, (Cuba)  
but  
it's not a it's not a cigar  
it's a perfume...  
it smells really good  
and I also  
got this one (Balmoral) and this is a cigar  
I have it here  
and it's a big one  
and I will enjoy it as we move  
along  
this message may be a bit longer  
than you expect but,  
just remember your days in school ....  
you were able to pay attention  
for 6 or 8 hours a day  
so you can easily read and understand  
the longer  
messages or books...  
maybe you can take some notes  
if I say some good things ...  
some helpful things.  
I had  
bought flowers and fruit and coffee  
for my mother and my sister ,  
and also for my friend  
Richard and his family.  
And I gave money to the kids of my  
sister  
and I also gave money to the kids of my friend  
Richard.  
They need to save money  
they will need it as they grow up  
they would like a Drivers license

they would like a car,  
new clothes and so on.  
so it's important  
to put money into their savings accounts  
while we have the time for it..  
you could start your notes with that  
remember the time in school when you  
focused for 6 or eight hours a day ..  
which means you can do it  
and you can learn  
anything you need to learn to prosper in life.  
I have been... I actually kind  
of stumbled  
upon Andrew Tate ..  
I stumbled upon his videos  
because I  
am learning for quite some years from  
successful people  
from their videos ..  
and I stumbled upon him.  
I have joined his free newsletter  
I have watched videos of him  
they are very helpful  
I wanted to join this ..  
uh his business Hustlers University  
which is now called the real world..  
it's like 50 bucks a month..  
I am mostly interested in  
this one particular wealth building module  
as he calls it  
it is the skill of uh copy  
writin  
g it is according to an S.s Kennedy the highest paid skill in the world  
if you are really good at it  
it is important  
very much ,in business and it's

important if you write books  
the description of the book is a  
piece of copy writing  
it should persuade  
people to buy your book  
but for now they only accept  
payments via credit card  
and I don't have one .  
I am not going to get one  
I've have had one in the past and  
I had some difficulty to pay it off  
and  
eventually I succeeded to pay it off  
and then I cut it into pieces and threw it away  
and I'm not , I'm not getting a  
new one.

I hope in the future they will  
add the  
payment via bank transfer  
I also don't have PayPal anymore ,  
it caused... well I caused the problem

I received money from the  
clients of a friend of mine  
who is uh also in business .

He makes websites  
and logos and so on,  
and

I should have kept the money and  
transferred it to him via bank....  
they had trans transferred it to me  
via Paypal because that is way cheaper  
than by Bank..

It went well for a while but when I  
was in such a big mess  
and I couldn't work and I was  
completely broke ...

I used some of that money and that caused the problem.

I thought I will earn it and I will pay it back obviously but that that took me more time than I thought and it created a problem ...

So I learned from that and I um how do you say it ?

I terminated my PayPal account , because I don't want to experience the same problem again.

all right uh I was talking about Andrew Tate right

so yes

I am interested in becoming a customer of his business to learn uh copy writing...

to learn to to do it much better so that I can sell myself better and sell my books better

that will be a thing for the future when they add a another payment option by Bank his free

newsletter has been beneficial to me in one of them

he talks about earning your breakfast and I started implementing it.

Implementation means doing what you learn to put it into practice

it is also the only way ... when you can really benefit from what you learn

only if you take action on it if you implement

so maybe maybe  
that's another thing for your notes  
implementation implementation  
is one of the most important  
things if you are  
learning skills and so on  
implementation  
is more  
important then it is to read another 10  
or 50  
books  
implementing from the books that you  
have already read ...  
that will make the  
changes in your life  
and give you the  
results that you want  
it's very important  
implementation  
so I would drink my  
coffee, have some water, prepare my bag  
bag of greeting cards  
and prepare sandwiches  
and I would  
go to work without the  
breakfast  
and after I made like five  
sales  
I have earned €25  
I would only then, I would eat my breakfast  
it's a good discipline  
I think the first few days I had to get  
used to it  
but after that it went  
much and much  
better

so I have , and I'm still doing it  
for for a couple of months now  
so

I have really benefited from his free  
newsletter and that's why I recommend  
that you also join it..

I have bought one of his books, so yes I  
am a customer of  
his

it is this one..

it's called Think outside of the  
Matrix, how to resist the slave mind  
one of the things I cannot  
say too much , because I would spoil  
the book for you

but I think I can say two things ,  
he recommends that you become  
a

doer

which means that you take action continuously  
that you do things  
that you get things done  
that you work a lot

a

doer ,

not a talker a doer

right

and he also says to not  
conform to other people's  
rules and opinions

and I had already explained  
this in one of my videos but  
unfortunately I could not get it online  
now I'm recording with my phone and I  
hope that I can get this one  
online

It is recommended that you get a coach ...  
Les Brown recommends it  
he says if  
Tiger Woods needs a coach  
then what do you need ?  
you  
obviously need one and I do too ..  
so I got  
myself a coach  
I've had two  
coaching sessions  
it was like 50 euros for an hour  
it has helped me and  
benefited me.  
I started uh making more sales after that..  
He did say  
that I should  
not be writing books about business  
until I was making  
100,000 a year or more  
so that only if I had produced  
that result ...  
only then I would  
be credible and believable  
and a good example  
and so on..  
He, on one side he's right  
but on the  
other side I am a  
writer and I ignored  
that  
I did not conform to to his  
opinion  
I've written the book :  
Challenges in having your own business,  
in real life

anyway  
and it sold like 20 copies in  
paperbacks  
and it was  
downloaded for free as an ebook more  
than 20 times ..  
it cost me like 12 ,75 to buy  
a ISBN number which is like a product number ,  
and then it gets  
distributed to various different online bookstores..  
But I  
have,  
I've gotten that money back because  
of the sales and the profits from the  
book...  
so Andrew Tate says not to conform and  
before I even knew of him  
and his teachings I did not conform...  
it was for me the right thing to do,  
because writing more books has helped  
me,  
to become a more experienced and  
better writer...  
I have responded a few times to his  
newsletter by email...  
I learned from his staff that you  
can only reach him in the War room...  
that's another section of his business ,  
and that it costs like  
\$5,000 to join ..  
maybe that's a thing for the future  
we'll see ....  
I would like to read  
one of my emails  
that I've wrote to him,  
to you and then you

can, you can learn from that  
and you can  
make some notes  
and you can start implementing the  
things that have helped me, that can also  
help  
you.

In one of his emails he said  
something like that his heart was  
hurting, because he was seeing us failing  
monumentally...

And I responded with:  
don't feel down, don't think that  
you are not helping, you are

....

And after that I wrote another email,  
and I will read it now to  
you

I say :

hello Mr Tate

with my messages I'm not kissing  
your ass, if you were a beautiful woman I  
would, but you are not so I don't

I am just being sincere and Thanksgiving  
your earn your breakfast discipline  
which I implemented will Aid me for the  
rest of my life

so you deserve a big thank you

( it happens to be that my  
father is doing the same thing he's a  
veteran )

so here is a thing for your  
notes

“earn your breakfast”

implement the discipline

I am also using social media

to Market and promote like you said to  
use it  
that's another thing you can use  
social media to Market and promote  
yourself and your work  
whatever it may be  
I have also bought ask AI like you said,  
it helps me to write more books  
faster and to write better sales pitches  
so thanks again  
that's another thing for your  
notes this AI app is only €70  
and that's a onetime fee  
for Lifetime use  
so it's a great deal and it is very helpful  
and you should get it and use it and  
implement this as well  
then I say in response to your  
email of today this year I have written  
How to stop being broke  
Faster way to success and riches  
Formula for getting rich and wealthy  
Jump start your success  
P.a.w. ( which stands for not the paw of an  
animal but for prodigious accumulator of wealth)  
and I recommend that you get the  
book : The Millionaire Next Door  
where you  
can learn all about that  
then  
40 practical ways to stop worrying (it's in Dutch)  
I think it's a good idea that I soon  
start Translating that book,  
right  
that could help a lot of people  
then

How they keep you poor  
then Tired, question mark, how to fix it  
How to make money online  
How to sell yourself and be successful  
you might want to get that one it's an  
important book  
then  
Fix your shit  
then  
The magic of inspiration ( which is still in Dutch )  
The Adventures of ixie (that's a Dutch children's book )  
Screts of the rich (you might want  
to get that one as well )  
Sammed by a charity (which is in Dutch )  
Children's bedtime ( it's also a Dutch children's book )  
Saving pennies with Mimy  
(a Dutch children's book )  
But the update is that yesterday I  
have translated that one and I have made  
a short video about it ...  
so if you have kids or  
grandkids you could get that one as well...  
it's not only fairy tales it's  
valuable lessons ,  
like saving money  
for example  
which is really important  
so then  
You shine bright  
(I should have maybe used another  
title like  
read this book to get inspired and  
motivated and feel better about yourself  
right,  
now something like that...  
but okay it's

now you know what the book is about )

okay and then

the adventures of Skippy (which is a English children's book )

then I write it's a

investment in future royalties....

obviously I have made sales selling

packages of greeting cards,

every month this year.

I gave money to people with

disabilities and a few Charities, every

month.

I lost about 8 kg in weight and

have been to the gym

sweating on

the treadmill and lifting

weights

(there is another one for your

notes, go to the gym sweat on the

treadmill, and lift weights ,

take care of

your health,

take care of yourself

you will feel better

and you will be more productive and you

will get better ideas)

then I write :

I won't be asking you

for money ,

you would say : your money is in

the field, go get it .

(At the field is the

the people's houses where I sell)

occasionally I will send you a

message

a thank you

or a update about my

progress

I hope that's okay

I understand you and your team are busy, so you don't have to reply .

kind regard Jasmin Hajro

Okay, so I

hope, I hope you have picked up a few things out of this email that you could do ,

I hope that you also understand that you should join his newsletter

and buy his books

and listen

to his videos

and most importantly

Implement what you learn ...

take action on it...

For alongside with the cigars that I got as a gift

I also

got this sweater from my mother for the winter.

I also got a gift card for a

online store which is

bol.com that is like the American Amazon

it's a huge online store, it has millions of products.....

For me the most

interesting is to order books , from

there from successful

people ...

so I have used my gift card and

I've ordered four more books from Andrew Tate

and this one that I showed you (Think outside of the Matrix)

I am

reading it for the second time  
because  
I've read it once when I was drinking  
and my mind was a bit foggy then  
and I would forget things ...  
so I'm reading it  
reading it again so that I can  
Implement  
better...  
oh  
at the end of the  
book : the children's book, which is a box set  
It is : Saving pennies with Mimy and  
the adventures of Skippy ..  
they are valuable stories  
short stories for children  
At the end where you have  
the section about the  
author,  
I have  
one part I have written, and the other  
part is written by the AI app...  
I have for like the first time  
written that I broke the law a couple of  
times when I was  
younger  
so I'm still like ashamed about that  
and I don't know  
it's not something you  
would want to share with  
everybody  
it has been a very long  
time ago  
I was  
maybe 18 or 19...  
I was drinking a lot,

I was using a  
lot of drugs,  
and if you do that, you become very indifferent  
extremely indifferent  
so  
so it happens  
unconsciously  
you're young you  
are strong,  
you you are maybe a bit  
arrogant,  
and I was ,  
and you think , it won't hurt me  
I can  
I can keep on doing this....  
but unconsciously it starts  
messing with you...  
it causes all kinds of  
problems, so I was.... after some years I  
became extremely indifferent...  
I just didn't care.....  
and you  
should,  
you should do whatever  
you can to stay away from drinking and  
using drugs...  
I have been there,  
I've done it,  
you don't need to make the same  
mistakes like I did...  
save yourself the time and the  
headache and the broken relationships  
and  
the waste of time  
the  
trouble

right  
stay away from it ,  
maybe now I  
am I'm ready to talk a bit about it,  
because it has been such a long time  
ago  
almost two decades  
and I hope  
that by me saying it  
I can Inspire and help some young people  
to stay on the right path in life  
to abide the laws  
and to live a better and good  
life  
it's not  
the...  
how do you say it ?  
there are more worse things than what  
I had done  
obviously  
but it was it was still bad  
and occasionally it still Flashes  
through my mind  
and then I feel guilty  
about it...  
for example one time I had a friend  
it was my best friend and he had a  
girlfriend, and she was kind of harassed  
at school  
bullied  
and then we went to school and  
beat that that young  
man  
and you are not supposed to do that  
so we got punished for it  
I also,

Just for kicks ,  
would we  
well we  
actually we would steal  
tobacco at the  
store  
Just for kicks and then  
I would get caught...  
and I thought, if I hit the guy  
so that I could  
run away  
and we wrestled and I lost  
because he was a grown man and I was  
just a kid  
so I got punished for that too  
and you should also not be  
drunk and kiss girls in the disco  
because they don't like that  
and I  
also got punished for  
that  
I had to do this uh community  
service  
for like 20 or 30 hours ..  
it was  
not a severe penalty but it was still  
it was still bad  
this maintaining of the nature  
at the roads, like the pieces of  
nature that are  
there  
I had to do that,  
it was the most  
embarrassing thing in my  
life ...  
to wear that flashy orange jacket

and to be there ..  
o my God  
I should have been  
smarter but like I said  
the drinking and  
the using of the drugs made me  
so extremely indifferent that I just  
didn't care  
and it made me cross lines and  
break the law and for that I got  
punished  
which is normal  
you should not break  
the law  
As I look back on it I think  
it was kind of  
necessary to get me out of this  
environment where  
people were only using drugs and  
drinking and not doing  
anything  
so to get me, to get me sober and clean  
again  
I believe well there will be of  
course all kinds of different reactions  
to this...  
I cannot ... I cannot control other  
people  
if I lose some fans then so be it...  
I think there are are two kinds of  
people that break the  
law  
the one group, they break the law and  
they don't learn from it and they make a  
career out of it....  
And then you have the other group

that breaks the law, that mess  
up  
and maybe one or two, three  
times but they do learn their lesson  
and then they work on  
themselves and they fix their shit  
right  
like the the title of the book  
they get help  
they get clean  
they get sober..  
they never never want to  
go back  
and because of that they are  
from then on ,  
on their best  
behavior  
because they never want to go back !  
and they also don't want to be the  
suspect when people are doing bad stuff  
so I'm of the second group that uh  
messed up a lot but I learned my  
lessons and I  
changed  
uh I'm trying to get these uums and uuhs  
out of my speaking ...  
which is another lesson from  
Andrew Tate  
I was able  
to find a part of his teaching which  
you have to pay for, that someone had put  
online for free  
and I had listened to it  
those are his business lessons  
what he learned in  
business

and they are really good  
and I absolutely want to join his  
hustlers University  
and to learn more and to  
implement  
more  
so after that I became uh  
clean  
I had also stopped drinking for a  
while ...  
one time I used Too Much drugs  
these uh tablets that give you  
energy  
and because I  
was uh extremely indifferent I used more  
and more and  
more  
I was up the whole weekend  
the whole weekend  
I had not slept at  
all  
and eventually I got into a really  
bad trip  
uh it went uh it went bad  
my heart was beating so fast I  
had taken too much  
I thought it would  
jump out of my chest  
and I would get a  
heart attack and  
die  
and I started also  
hallucinating  
and I peed my pants out of fear  
and uh after a while I scared  
the hell out of myself and out of my

mother and my  
sister  
I caused a real trauma  
they came and they picked me up  
to bring me to the  
hospital  
and I lost Consciousness and I  
went into a  
coma  
and with uh  
luck  
but I think what we see as luck is  
just  
God's mercy and God's generosity  
it is by his mercy and  
generosity that I survived that  
and that  
I'm still  
alive  
after that  
I realized that this was my second  
chance for life  
so after that I also  
changed ...  
I changed more than I realized...  
because for me I am still me  
you know a better version of myself a  
better person of  
course  
but for my sister and my mother  
and my other family  
I have, the change is more obvious to  
them than it is for  
me  
so well  
Andrew Tate says people learn

the hard way  
or the hardest way and  
I'm stubborn like a jackass  
and I learn  
the hardest way  
so that's why I tell  
people to do whatever you can to stay  
away from the drinking of alcohol and  
stay away from drugs  
it is the worst  
that they have ever created  
So I changed  
I got clean, I got sober  
I was not longer interested in those uh  
mafia movies the  
violence  
I started reading  
biographies  
I started listening  
to successful people, mostly on YouTube  
I started reading  
more  
I started uh I picked up playing chess again, I went to a club  
I played  
I studied it  
I took  
walks and  
I just changed my behavior  
completely  
it was kind of  
uh you might say  
lonely years...  
it did not bother me  
much, because I kept myself busy  
right  
I did various kinds of jobs

I could not keep them for  
long  
eventually I got a job as  
a dishwasher at this restaurant in  
Doetinchem and there I had a good time ...  
I worked hard and I worked my way up to  
cook  
and in 2010 I collapsed a few  
times and I stopped drinking  
alcohol  
I stopped drinking alcohol for  
10 years  
and unfortunately in  
2011 I started hallucinating when I was  
sober and  
clean  
and I lost the lifetime employment  
that they gave me  
After that I've been  
through very difficult seven or eight  
years,  
without money and with a little bit  
of  
money  
I failed with my first business  
and when I was desperately looking for a  
job and could not find  
it  
my sister and her boyfriend taught me  
to do sales  
and uh I started my second  
business  
and I'm still operating it  
I'm  
still selling greeting cards but now  
since a few years I designed them myself

so they are very  
unique

I have been writing in journals  
for about 10

years and in 2017 I wrote and  
self-published my first book and then I  
translated it into English, it is called  
Build your fortune

I had learned myself about finances by  
reading books and taking home study  
courses and

I also invested in mutual funds and  
stocks and I also got experience with my  
first business, which was investing for  
other people and I thought it would be a shame  
if all that experience and knowledge  
went lost...

so I wrote a book to  
help other people with it  
After that I kept on writing and  
selfpublishing more  
books

I had  
read  
in like a free report of one of those  
self-publishing  
companies, that successful authors write  
10 or more books compared to the  
unsuccessful  
ones

so I also implemented that, I looked  
what more did I know ,what knowledge,  
what experiences did I have, that I could  
write about

and I kept on writing and  
self-publishing more

books and I also translated them into English  
and by now about 5 years later  
after 2017 and my first book I have  
written more than 60  
titles  
I have earned money with my  
books and I still continue to  
write  
it is a form of therapy for me  
and it is  
also sharing my knowledge and my  
experience  
and it is also to help people  
and it is also to earn money  
and I  
will continue to  
write  
the writing in  
journals was because of a coworker told  
me, that I should get an empty book  
and write down the stuff , the tasks  
that I completed ,  
the good jobs that I  
did, so if I had a bad day I could read  
that to feel  
better  
and so I did that for like 10 years  
and that led me into  
writing and self-publishing  
professionally  
those are my two  
jobs, the selling of greeting cards and  
the writing of  
books  
and I am going to continue to do

that work for the rest of my life, I believe that is my purpose to help a lot of people with my greeting cards and my books because with my greeting cards they save money and they keep in touch with their family and friends but uh it's it's kind of like those Works had found me, right because she said you should write in an empty book, I started writing and it led to writing professionally then it led to more than 60 books written and self published and one even translated into Italian and published by a publisher, a professional publisher in Italy and the other , when I could not find work that they gave me Sales training and the greeting cards and that work also found me maybe you're thinking like uh well man I've seen your page on Amazon that's more than 100 titles published you sure do have a lot to say don't you ? well I disagree, if you would know me personally I think you would be a little

bit surprised that I don't  
I'm very calm  
and I don't talk that  
much  
it is  
the universal intelligence  
it is God, it is Allah  
who gives me the inspiration to write  
to help and educate people  
so that's what it really is  
that  
so my message to the young  
people  
is  
it was going through my mind as I was  
working and and walking  
home  
what should I  
say  
it's just such a mess that I had made  
and it's so stupid of me that the most  
of my problems I created my  
myself  
it's really  
stupid  
but  
anyway  
so my I have learned from it  
I became a much better  
person  
you don't have  
to make those  
mistakes  
just abide the  
LaW  
be uh be respectful to other people

and their  
stuff  
what is my message to the young  
people ?  
stay away from drinking alcohol  
don't smoke, stay away from using drugs  
abide the  
laws  
if you possibly can, work six seven  
days a week  
work your ass off  
and be frugal  
and save your  
money  
do whatever you can to get rich  
and you will have a much better  
life  
it's not it's not cool to use drugs  
it's not cool to drink  
beer  
it's not cool to behave like an asshole  
and punch people  
if you want to  
punch people go into boxing, or do karate or  
kickboxing or whatever  
that is much  
better for you  
you will learn  
discipline  
keep it in the  
ring  
don't do that in  
public  
what is  
cool ?  
if the young people the young

peoples  
want to be  
cool  
it is cool to have your own money  
it is  
cool to earn your own money whether you  
live at home or live on your own  
it is  
cool to stay Frugal and to be frugal  
until you are  
rich  
to see and learn and experience that you  
can do much more with 10 bucks than you  
originally  
thought  
it's cool to always have money in  
your pocket  
it is cool to give your mother  
money when you're living at home and  
after you leave her home and you are on  
yourself, you still give her money and  
you buy her flowers and you buy her  
presents, that is  
cool  
it is cool  
to work your ass off to get  
rich that is  
cool, yes  
yes  
if you want to understand why you  
should  
give your mother money even after you're  
living on yourself then do the next  
exercise or do it in your mind as I tell  
it  
get yourself a

backpack put it on but on your front  
so that the backpack is on your front on  
your  
stomach  
put some bricks in  
it and go live for a week with with  
the thing on  
24/7 and then you will  
understand  
yeah  
go eat with that on you  
go work with that on you  
go to sleep  
with that on you  
and then you will  
understand what it means to be pregnant  
that it is hard work  
that it is  
difficult  
and your mother did all of  
that for you,  
she gave you life  
and you  
should give her presents and give her  
money until you die until she  
dies  
and you should make her proud of  
you  
and you should do whatever you can  
to make your parents proud of  
you  
all right  
I think it's been a very  
reveiling video and book  
I hope you  
have learned some good things from

it

I hope you have learned from my  
mistakes and that you  
never repeat

them

I hope I've given you a good  
definition of what is called cool  
and what is

not

this is also a present from my niece  
the bracelet I wear, she made it  
herself

I am going to keep it on for as  
long as I can

it reminds me of love...

it's an extra motivation to work  
harder because if I work hard  
and achieve more and earn more my  
family will also benefit

and yes I give

my mother money even though I live on  
myself

and I buy her flowers yes

and

presents yes

so you should do the

same

I hope I

have

persuaded you to join Mr Tate's  
newsletter which is for free and  
I've piqued your interest in his books  
and his teachings and his hustlers  
university

which is now the real  
world

you should be learning from  
successful people  
and Millionaires  
and  
you should Implement and implement  
and Implement  
do what you learn  
take  
action on it  
until you are getting the  
results that you  
want  
all right  
so thank you very  
much for reading  
thank you very much for  
watching (the video is on youtube)  
I hope this is helpful to you  
I hope uh that you can still trust  
me regardless of my  
past  
I have truly changed and I have  
became a much better  
person yes  
I will do one video a month  
I will tell you how the month went  
if I  
have something good to share I will  
share it with  
you  
but I will also  
occasionally make an exception and make  
an extra video like this  
one  
or when I have written a new book or  
translated one of my books into English

like I said in the previous video  
if I don't tell the people about my  
work then who is going to tell them  
about it ? right  
''if it's to be it's up to  
me''  
and you should also study Brian Tracy  
and his  
books  
okay once again thank you very much this  
is Jasmin Hajro  
until next  
time  
please please share my books and my  
videos and my teachings with other  
people  
if you think that they are, they  
will be helpful to  
them  
thank you very much and until next  
time okay bye-bye for  
now  
Ciao ciao
